## OUR STORY

Named after the indigenous Loggerhead Sea Turtle, LagerHead Tavern at Oyster Reef Golf Club is proud to support causes protecting the wildlife and natural settings that surround both the property and Island. Initiatives include supporting Audubon International, a non-profit organization that educates, assists and inspires people from all walks of life to protect and sustain, the land, water, wildlife and natural resources around them. We also are a local supporter and nest adopter of the Hilton Head Island Sea Turtle Protection Project at the Coastal Discovery Museum. From the birds, and of course, the alligators, to the Tiger Sharks in the Port Royal Sound, nature surrounds us on land and sea.

In addition to protecting the wildlife and natural surroundings, we also are focused on preserving the rich history of the Island and the property. The Historical Hallway showcases the Island's history from the moment William Hilton himself set eyes on the Island until the modern day planning of Hilton Head Plantation and the golf course.

Whether you have just played golf or have joined us for a bite to eat, we thank you for visiting LagerHead Tavern, "Where The Locals Come to Nest."
